### **LDS CONVEYS WISHES FOR WORKERS DAY 2021**

LDS joins with all the people of Seychelles in the commemoration of Workers' Day 2021. We express our sincere wishes to all workers in our country for good health and strength to continue with their professions and occupations so as to assure their own livelihood and the happiness of their families.

With the difficulties that our country continues to face, it is the right time for us to appreciate all the more the value and dignity of the work that we do and the responsibility that we have to ensure our own well-being. We express our appreciation for all those working to maintain the economic and social systems of our country amidst the challenges.

LDS calls for national support for the policies of our Government to ensure employment for all our citizens with the measures to organize more effectively the placement of workers in available jobs, the better control of GOP procedures to ensure that Seychellois are employed first, and the call for businesses to assure the advancement and progress of our young professionals.

We ask all the people of Seychelles to join together in support of the efforts to secure jobs that come under threat such as with our national airline, Air Seychelles. Such situations are the concern of not only the political leaders but of all our nation and they call for our solidarity as workers.

We continue to call for fair remuneration for all occupations and the pursuit of a more equal and just society. It is our hope that economic recovery and a return to prosperity will allow all workers to recover benefits they have lost and rewards they have had to sacrifice.

The celebration of Workers' Day 2021 will need to be subdued because of the health regulations we are being called to observe. We bring our support to the Ministry of Health and all its personnel working for the safety of all our people. We hope that everyone will understand and co-operate with the instructions they give for our own safety.

Once again, our best wishes to all workers for a meaningful commemoration of this occasion.

Roger Mancienne  
Party Leader
