PRESS RELEASE - LDS MESSAGE FOR WORLD TEACHERS' DAY 2021

LinyonDemokratik Seselwa, (LDS), extends a message of appreciation and good wishes to all teachers in Seychelles on the occasion of the World Teachers' day 2021.

It is encouraging to see all sectors of society coming together to express solidarity with the people in this noble profession. This is a recognition of the contribution that teachers make in our lives and the development of our country. Once again, by joining them in spirit for this occasion, we pay tribute to the value of education in our development and progress as a nation.

As we continue to fight the Covid-19 pandemic which poses a threat to health and life for everyone in our country, we remember that teachers are in a group that faces extra risk because they are in continuous contact with children and young people from different households. This is only another reflection of the central role they play in our society. We are grateful that they have continued to meet their responsibilities, and that they have searched for new ways to engage with their pupils and students at this difficult time.

As a political party, we will remain engaged to support the improvement of our educational system to meet present and future challenges, and for the welfare of our educators. We express our best wishes for the health and safety of all our teachers and for them to have the strength to meet the demands of their vocation.

Wavel Woodcock
Public Relations and Communications Officer
